

# Grupo Tergo Laf

Solutions that combine know-how, technology and compromise for our clients to know, in a 100% trustworthy manner, the true state of their pipes.

We certify our commitment.

# Who we are

Grupo Tergo Laf is an independent company that provides solutions in the field of integrity and reliability of Gas & Oil facilities, with a vast experience in the assurance of the integrity of transport pipes, facilities and process plants.

# TUBULAR INSPECTIONS

- Remote Field Testing (RFT), detection of internal or external degradation in ferromagnetic tubes.
- Eddy Current Testing (ECT) for non ferromagnetic materials or alloys slightly magnetic
- Near Field Testing (NFT), specifically designed for inspecting aero-coolers or tubes with fins without the necessity of external reference patterns.
- Flux Leakage Testing (FLT): magnetization of the material and detection on disruptions in the magnetic field, for ferromagnetic fields.

# MFL ON TANK FLOORS

We provide MFL inspection for tank floors combined with ultrasonic inspections in accordance with API 653. The end of this service is to determine the mechanical estate of the tank and define repairs/replacements if needed.
